

**7th International Conference on
Multiphase Technology North America
Banff, Canada; 2 - 4 June 2010**

SPONSORSHIP OPPORTUNITIES

What BHR Group does to support Sponsors?

BHR offers all Sponsors a free page of advertising in the printed conference proceedings book and CD. Every conference delegate receives a copy of the proceedings and CD as part of their delegate package and thereafter the books/CD are marketed and sold worldwide. You will be provided with guidelines and requirements for the advertisement by the conference organiser.

What Sponsors can do to support the conference

We welcome Sponsors offering to circulate registration details to their customers, either by mail or electronically. This means we are able to reach a wider audience than we would by relying only on our own databases. It also gives a Sponsor the opportunity to bring to their clients' attention the Sponsor's participation in this event.

Sponsorship opportunities available

As a sponsor, you will receive the benefits below in accordance with the amount of sponsorship provided. Depending on which amount of sponsorship you select, you may choose one item to sponsor and this will be designated as 'sponsored by your company' throughout the conference.

Sponsorship can be customised to suit individual requirements - for instance the best paper award is a popular choice, this award is short-listed by the TAC and presented to the winner (approx. £500) at the gala dinner. The aim of this scheme is to encourage new engineers/graduates into the industry, this is judged on the quality of the paper and not the presentation. For more details, please contact the organisers.
