

Course Testimonials

What our clients say about us

“The course identified problem areas to look at!”

“Well organised, course material extremely detailed. The course identified problem areas to look at!”

N P Johnson, Sellafield Ltd

“Very impressed with the course”

“Great course manual. Very impressed with the course”

Mrs R Wills, Baxenden Chemicals

“Well worth the time and money”

“The group very much enjoyed the course and appreciated hearing it. We expected to get a check on our knowledge and some leads on expanding our knowledge - I think it was well worth the time and money for us to go through this. It served our purposes quite well and served as a nice background for our consultation. Thanks for being flexible enough to accommodate us so quickly”

Dave Skouley, EXXON Mobil

“The course contained everything I had hoped”

“I hoped to gain a basic grounding in viscometry and gather information to help me choose the right viscometer...the course contained everything I had hoped”

Dr Sara Kelly, SBD Ltd

“Very well organized and professionally executed”

“Very well organized and professionally executed. Great materials, just enough information – I like the descriptions that go along with the slides. It fully met/exceeded my expectations”

Daryl King, Worley Parsons Canada

“Thanks for this to BHR”

“Very well organised, thanks for this to BHR”

Jack Kuenen, Weir Minerals

“Learnt more than I expected”

“The organisation for this course was perfect. Learnt more than I expected. The quality of the manual is superb it contains the right amount of detail, is easy to follow and the pictures for examples give better of understanding.”

R David, Astra Zeneca

“Would recommend it to others”

“This was a good course; I enjoyed it and would recommend it to others”

Brian Stanfield, Chemical Engineer in the production of an organic powder.

“I wanted to put my knowledge into context”

“I wanted to put my knowledge into context and fill in gaps by talking to other professionals. It came up to my expectations!”

Dr Trevor F Jones, School of Chemical Environmental and Mining Engineering, University of Nottingham

“It was excellent and well presented”

“I was looking forward particularly to the theory and it was excellent and well presented”

Ben Bitherdon, TSG UKAEA

“Targeted to the right audience”

“The material presented was just right and targeted to the right audience”

Sara Al-Tahan, Hatch Associates, Canada
